

MALLA SAI VARDAN

AI/ML Developer · Full Stack Projects · CSE Student

mallasaiwardan@gmail.com | linkedin.com/in/malla-sai-varдан | github.com/saivardanmalla | Andhra Pradesh, India

INTERNSHIP OBJECTIVE

B.Tech Computer Science student (2028) with hands-on project experience in AI/ML, full-stack development, and data science. Built end-to-end systems spanning AI coding agents, predictive ML models, and management applications across Python, Java, and C. Seeking an internship opportunity to apply technical skills and contribute to real-world software or AI engineering challenges.

EDUCATION

B.Tech in Computer Science & Engineering

2024 – 06/2028

RV Institute of Technology (RVIT), Chevrolu, Andhra Pradesh | Affiliated: JNTUK Kakinada 2nd Year (Batch 2028)

- Coursework: Data Structures & Algorithms, Operating Systems, Machine Learning, Probability & Statistics, Database Management Systems
- Coding proficiency: Python · Java · C · JavaScript · SQL

Intermediate (MPC) — AP Residential Junior College (APR JC), Venkatagiri, Tirupati District

2022 – 2024

Percentage: 66.5%

SSC (10th) — Zilla Parishad High School (ZPH), Kasibugga

2022

Percentage: 57.83%

PROJECTS

AI Coding Agent | Python · n8n · LangChain · API Integrations

2025

- Built an autonomous AI coding agent using n8n's agent functionality with tool-calling, memory modules, and system prompt design for multi-step code generation tasks
- Integrated external APIs and designed agent architecture covering planning, retrieval, and execution stages for end-to-end automated programming assistance

Heart Disease Prediction | Python · scikit-learn · Classification Algorithms

2025

- Developed an ML classification model to predict heart disease risk using clinical datasets, applying Logistic Regression, Decision Tree, and Random Forest algorithms
- Performed data preprocessing, feature selection, and model evaluation; achieved competitive accuracy with confusion matrix and ROC curve analysis

Bank Management System | Java · OOP · File I/O

2024

- Designed and implemented a console-based banking application supporting account creation, deposits, withdrawals, balance enquiry, and transaction logging using object-oriented design principles

Hospital Management System | C · Structures · File Handling

2024

- Built a C-based hospital management tool to manage patient records, doctor assignments, and appointments using structs, file I/O, and dynamic memory allocation

Student Management System | Python · SQLite · CRUD Operations

2024

- Created a Python application with SQLite backend to manage student records including add, update, delete, and search operations via a menu-driven CLI interface

Portfolio Website | HTML · CSS · JavaScript

2025

- Designed and deployed a personal portfolio website showcasing projects, skills, and certifications with responsive layout and clean UI/UX across devices

CERTIFICATIONS & RECOGNITION

- Programming Fundamentals using Python (Foundation Program) — Infosys Springboard (October 2025)
- Programming Fundamentals using Python – Part 1 — Infosys Springboard (October 2025)
- Core Java — NPTEL, IIT Kharagpur (2024–2025)
- Introduction to Quantum Computing: Quantum Algorithms and Qiskit — NPTEL, IIT Madras (Jan–Feb 2026)
- Generative AI Workshop — Growth Ninja & Tinkerers' Lab, IIT Hyderabad (15th–16th March 2025)
- Felicity '25 Hackathon — Participant, International Institute of Information Technology (IIIT), Hyderabad (2025)
- CodeQuest MCQ Challenge (Elimination Round) — Code Clash 2025: The Ultimate Coding Battle, organised by Lets Code Community (2025)
- Startup Innovation Presenter — Ratan Tata Innovation Hub (RTIH), Vijayawada; pitched “Life Ayush – AI in Disease Prediction Revolutionary System” with working prototype to mentors and investors (2025)
- 1st Prize — Ideathon, Reckon 2K26 Fest, RVIT (March 23–24, 2026); project: “AI in Disease Prediction Revolutionary System”
- 2nd Prize — Paper Presentation, Reckon 2K26 Fest, RVIT (March 2026)
- Hackathon Lead Organiser — Reckon 2K26 Fest, RVIT (March 2026)

TECHNICAL SKILLS

- **Languages:** Python · Java · C · JavaScript · SQL
- **AI / ML:** scikit-learn · LangChain · n8n Agent Workflows · Classification Algorithms · RAG basics
- **Web & Tools:** HTML · CSS · Git/GitHub · SQLite · VS Code · Google Colab
- **Core CS:** Data Structures & Algorithms · OOP · Operating Systems · DBMS
- **Soft Skills:** Problem-solving · Technical documentation · Team collaboration · Exam-oriented writing
